Subject: Re: Request

I have recently and previously sent out to Region 8 and Utah and Region 9 and Nevada, at their request the following document:

SPRU_Tank_Sludge_Eval_final.pdf

which is DOE's own report and which they are sending out to others. This was sent by us to NYS DEC and maybe NYS DOH more than one month ago.

I have also sent out our comments as follows similarly as they were requested

July 18 2011 Final Comments to SPRU Waste Type Evaluation for Solidified Waste Tank Sludge.docx

I also had a teleconference with Utah officials earlier today. I (b)(5) - Deliberative Process, Attorney Work-Product

A little later today we anticipate sending out the PVU rad NESHAPs application approval.
